Professional Summary

Experienced Flutter developer with over 2 years of experience in mobile application development who is comfortable working with Dart, Javascript, HTML/CSS, responsive web and mobile design to deliver exceptional user experience. I have proven experience in creating and designing software in a test-driven environment. Excellent reputation for resolving problems and improving users satisfaction.

WORK EXPERIENCE

Naurs Dubai, UAE (February 04, 2022 – June 22, 2022)
Software Developer

Naurs is a yoga center, fine arts and fitness training center focused on delivery the best quality and unique fitness and art classes within UAE.

What I worked on:

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Participated in software field testing to verify performance of developed projects.
- Designed intuitive graphical user interfaces to improve user experience.
- Documented technical workflows and knowledge to educate newly hired employees.
- Developed software for mobile operating systems.

SmartRR Lagos, Nigeria (April 01, 2021 – February 12, 2022)
Mobile Developer

Smart Reporting and Referral (SMART RR) is a technology based mobile application that allows survivors, social workers and service providers to report and refer cases/incidents of GBV from their smart and basic phones.

What I worked on:

- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Reviewed code to validate structures, assess security and verify browser, device and operating system compatibility.
- Developed user-oriented visuals and features using front-end languages to increase site traffic.

Big Family 360 Yola, Nigeria (November 01, 2020 – April 02, 2021)
Backend Developer

Big Family 360 foundation is a non profit and non governmental organization that provides educational, Livelihood and protection services to women, orphans and vulnerable children.

What I worked on:

- Integrated third-party APIs from external applications into web platforms.
- Troubleshoot and tested software and debugged to clean up code and improve efficiency.
- Authored code in Python and JavaScript within Django framework.
- Developed server-side logic in Python and JavaScript.
- Defined and maintained databases to deliver responsiveness to data client requests.

Parkwell Africa Lagos, Nigeria (February 08, 2020 – November 17, 2020)
Backend Developer

Parkwell is efficiently making parking easy, quick and effortless for drivers, space owners and cities; reducing traffic congestion and carbon emission.

What I worked on:

- Designed client-side and server-side architecture and implemented cloud-based back end solutions.
- Wrote unit tests to evaluate high code coverage.
- Resolved scalability problems and addressed security concerns.
- Authored code in Python and JavaScript within Django framework.
- Integrated front-end elements into applications.
